Discover Southeast Alaska by Small Ship

Experience wildlife viewing up-close and personal, where only small vessels can go!

Cruise with us to this bucket list destination close to home.
Dear Alumni and Friends of Cal,

Join fellow alumni and friends for a summertime expedition through some of nature’s more secluded landscapes as we discover the remote inner reaches of Alaska’s Inside Passage aboard the 76-guest Chichagof Dream.

Enjoy the agility and flexibility of small-ship travel, up-close encounters with wildlife, stunning scenery, cultural experiences, and the guidance of two expert naturalists including an Orbridge Expedition Leader.

Capture the sight of whales breaching next to your boat, bears fishing along the shoreline, and eagles looking down from their nests—all part of nature’s amazing show.

This program also offers an optional pre-tour to Denali National Park. Explore this vast and stunningly beautiful wilderness—home to Denali, the highest mountain in North America. Ride the Alaska Railroad, stay at a hiltop lodge with panoramic views just north of the park entrance, and learn how this magnificent landscape became one of our nation’s most breathtaking conservation areas.

Go Bears!

Special Guest Lecturer: Professor Scott Stephens
Scott Stephens is a professor specializing in fire ecology and forestry in the Department of Environmental Science, Policy, and Management at the University of California, Berkeley. He has provided testimony to the US House of Representatives on three occasions, to the White House, and has spoken over two-dozen times to the California Assembly, California Senate, and Governor's Office regarding forest policy and management. Stephens' research interests include fire management, forestry, ecosystem conservation, environmental biology/ecology, and forest policy. He is interested in the interactions of wildland fire and ecosystems, which includes how prehistoric fires once interacted with ecosystems, how current wildland fires are affecting ecosystems, and how future fires, changing climates, and management may change this interaction. Stephens also is interested in forest and fire policy and how it can be improved to meet the challenges of the next decades, both in the US and internationally. Learning more about indigenous burning by Native Americans in California is a recent area of learning. He is the director of the university's Fire Science Laboratory and also directs the California Fire Science Consortium that provides information to managers to hopefully make better decisions. He has worked extensively in the USA, Australia, and Mexico and has also worked in the northern boreal forest of Canada. Stephens has a BS in Electrical Engineering from Sacramento State University and a PhD in Wildland Resources Management from UC Berkeley and loves to do field work, teach classes, hike, and ride his bike. Cal lecture’s participation cannot be guaranteed and is contingent on a minimum number of paying travelers.

One traveler per room, whether an alumni or friend, must be a current Cal Alumni Association member at the time of departure to participate in Cal Discoveries Travel offerings. Memberships are for individuals only, and are non-refundable and non-transferable. A traveling pair and their children under 21 years of age may travel on one membership. Please make dues payable to CAA by separate check, or, if you prefer, provide a Visa, MasterCard or American Express number with expiration date for payment. You can also enroll online at alumni.berkeley.edu/join.
