A 7-DAY WINTER WONDERLAND ADVENTURE

CAL DISCOVERIES TRAVEL

Dear Alumni and Friends of Cal,

Please join us on an extraordinary winter adventure: a seven-day wildlife expedition to Yellowstone—North America’s best wolf-watching habitat.

Dressed magnificently with frost and snow, and with visitors few and far between, experience an ecosystem when its beauty is more untouched by the outside world than any other time of the year. Hushed and magical landscapes are the setting for steaming geysers, trees covered in ice crystals, and the movements of bison, elk, pronghorn, bighorn sheep, and other wildlife—followed closely by the park’s wolves.

Safari aboard custom vehicles with expert naturalists as we explore and learn about the animals, environment, hydrothermal activity, and history of the park. Enjoy a private sleigh ride through the National Elk Refuge and meet an award-winning wildlife photographer for a presentation during a visit to his gallery. Each evening, overnight in atmospheric hotels and a park lodge.

Go Bears!

Activity Level 3: 🐾 🐾 🐾 🐾 🐾

What to expect: These trips feature long touring days with travel via motor coach, ship, zodiac, all-terrain vehicle, or train. Travelers are required to board transportation without assistance as well as stand and walk over uneven terrain for extended periods of time. Some tours may include optional higher-intensity activities and travel at higher altitudes with steep ascents and descents. Outings last four to six hours most days.

Suitable for: Travelers who are able to comfortably walk four to six miles, or 6,900–9,200 steps, each day.

As we embark on this new world of group travel, the health and well-being of our guests, our team, and the communities we visit remain our top priority. For a detailed listing of the enhanced safety measures and hygiene protocols specific to our tours, please visit orbridge.com/wellness.

.....
 Orbridge takes seriously the responsibility to minimize our global environmental impact. Each year we plant 100,000 trees in U.S. State Forests with afforestation needs as an on-going initiative among our evolving sustainability efforts. Learn more at orbridge.com/going-green.

Amidst crisp air, bare trees, frosted earth, and brilliant thermal features of Yellowstone National Park, the wildlife viewing in winter is better than any other time of year. The elements of nature are in full sway, and its wild inhabitants—close-knit packs of wolves—are hunting, mating, and surviving.
